SPALDING®

A DIVISION OF QUESTOR

Consumer Warranty

Spalding Limited One Year Warranty

Spalding top grade pro clubs are warranteed to the original owner against defects in material and workmanship which are not the result of abuse, misuse, alteration, accident, or damage in transit, for one year from date of original purchase at retail, provided you have completed and returned, within 15 days of original purchase, the warranty registration card accompanying this Spalding product.

Should any warranty defect occur during the warranty period, only the defective item should be returned, at the customer's expense, transportation prepaid, to the Golf Professional from which the product was originally purchased, for repair or replacement if necessary, as determined by Spalding. Any correspondence regarding this warranty should be addressed to Manager–Consumer Relations, Spalding, Meadow Street, Chicopee, MA 01013.

Spalding's obligations under this warranty are limited to the aforementioned repair or replacement of warranty defects for which return or notification has been received during the warranty period, and SPALDING SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM BREACH OF THIS OR ANY IMPLIED WARRANTY. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Duplication of Registered Clubs

Spalding Registered clubs can be duplicated simply by specifying the registration number, the name and estimated year of purchase of the set. On current models, the duplicate club will be an exact copy of the original club in appearance and playing characteristics. On older models, some substitution of components is sometimes necessary causing some appearance variation from the original. In all cases, however, the duplicate club will be an exact copy of the original in feel and playing characteristics.

Resale Prices

ALL RESALE PRICES SET FORTH IN THIS CATALOG ARE SUGGESTED PRICES ONLY AND ARE NOT BINDING ON ANY PERSON.

A Message to Golf Professionals from the President of Spalding:

You and I work for the same boss.

He demands that I produce and you sell the finest golf equipment in the business and charge a competitively fair price for it. He also expects us both to back our equipment with a strong warranty and prompt, dependable service.

This mutual "boss" of ours is, of course, the pro shop customer–the golfer himself. He is the one we must keep satisfied. Because if we don't, like any boss, he reserves the right to fire us–merely by spending his money elsewhere.

Our customer requires still more. He constantly urges that I create and you offer genuinely innovative products that make the game of golf a truer test of his skill. A glance at the Spalding record shows we haven't disappointed him:

1894–First golf club made in America

1898–First American made golf ball

1918–First steel shafted clubs

1926–First registered clubs

1958–First to apply a clear final paint to a golf ball

1967–First heel-and-toe weighted irons in golf

1969–First two-piece ball, Top-Flite, now universally recognized as the longest ball in the game

And now in 1978–Top-Flite Forged, the first clubs with Light Dynamic shafts.

At Spalding, we don't think our customer is unreasonable in his demands. Rather, we think he's a lot like you and me. When he steps up to hit a tee shot or stroke a putt, he wants nothing but his skill to determine his fate. He wants to know that his golf equipment is the finest the game has to offer. That's why he asks for Spalding.

That the customer is boss, of course, is a reality that you live with every day. My purpose here is to assure you that we at Spalding live by the same rules. And we're pretty good at it. After all, we've been keeping millions of "bosses" happy for over 100 years.

GEORGE A. DICKERMAN

Top-Flite®

The Longest Ball — a lot more than just extra yards.

In distance tests with golfers, measuring the "tee to green" combined total of drives and five irons, Top-Flite beat all the other leading balls by up to 14 yards.

Extra distance is undoubtedly why more and more golfers are teeing up Top-Flite, but it's not the only reason. That extra distance usually means a golfer can hit one club less on his approach shots. And that means a higher trajectory and a better bite on the green, which leads to more control and greater confidence.

Once on the green, golfers who play Top-Flite putt with greater confidence too, because The Longest Ball putts truer.

Top-Flite's unique two-piece construction with a rugged Surlyn® cover withstands mis-hits and stays round longer, too.

Put it all together and you can easily understand why in most pro shops today, more golfers put their money on Top-Flite than any other ball.

11-156 Top-Flite Golf Balls
Sugg. Retail **$17.00/dz.**

Personalizing: On orders of one dozen or more, the golfer's name can be imprinted in block or script lettering for a 50¢ per dozen service charge.

Molitor®

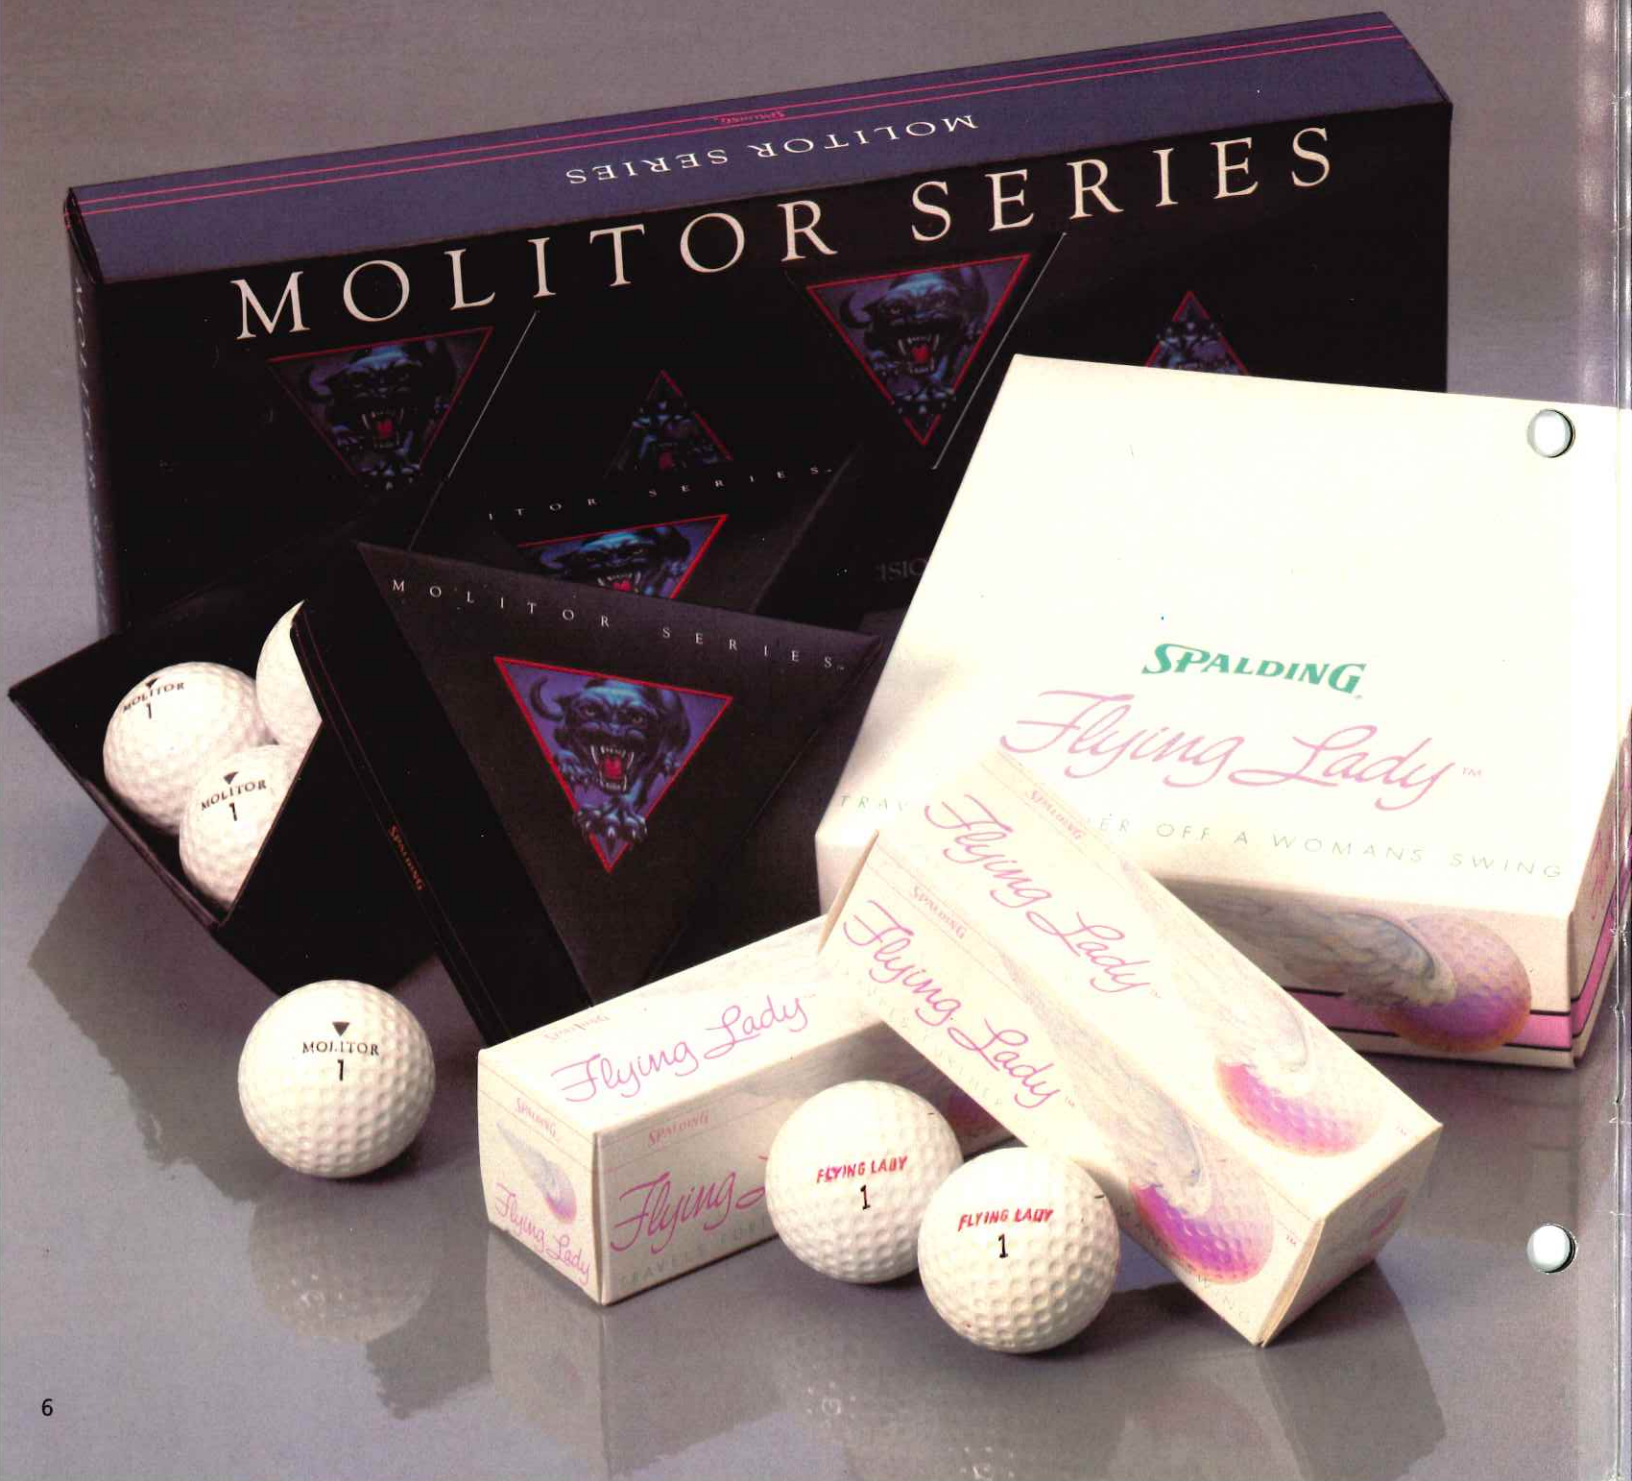
Each Molitor is specifically designed to maximize every distance and control stroke of your game. It is the smallest, heaviest, highest initial velocity ball allowed by USGA rules. For superior accuracy, it is closest to a perfect sphere. And no ball is more durable. For these reasons each Molitor is given its own unique registered number.

11-152 Molitor
Sugg. Retail **$24.00/dz.**

Flying Lady™

Here is a low compression ball with the feel a woman golfer needs–but with a big difference. The difference is Spalding's proven two-piece construction that stores more distance potential in the core. Flying Lady: designed to travel farther off a woman's swing. Rugged Surlyn® cover, too!

11-158 Flying Lady
Sugg. Retail **$17.00/dz.**



New Dot® Diamond

For 1978, Dot Diamond presents the DIAMOND DIMPLE, designed to deliver higher trajectories and more consistent control. Furthermore, now the Dot Diamond 90 and Dot Diamond 100 are different golf balls. Each has a solid, polybatadiene core and thread specifically engineered to deliver optimum feel and distance for that compression. "Compression" is now a unit of performance, not a grading device. Dot Diamond also offers the durability of a rugged Surlyn® cover and the responsive playability only a wound ball can provide–plus that legendary "Dot click and feel."

11-165 Dot Diamond 90
Sugg. Retail **$17.00/dz.**

11-166 Dot Diamond 100
Sugg. Retail **$17.00/dz.**

Custom Imprinting

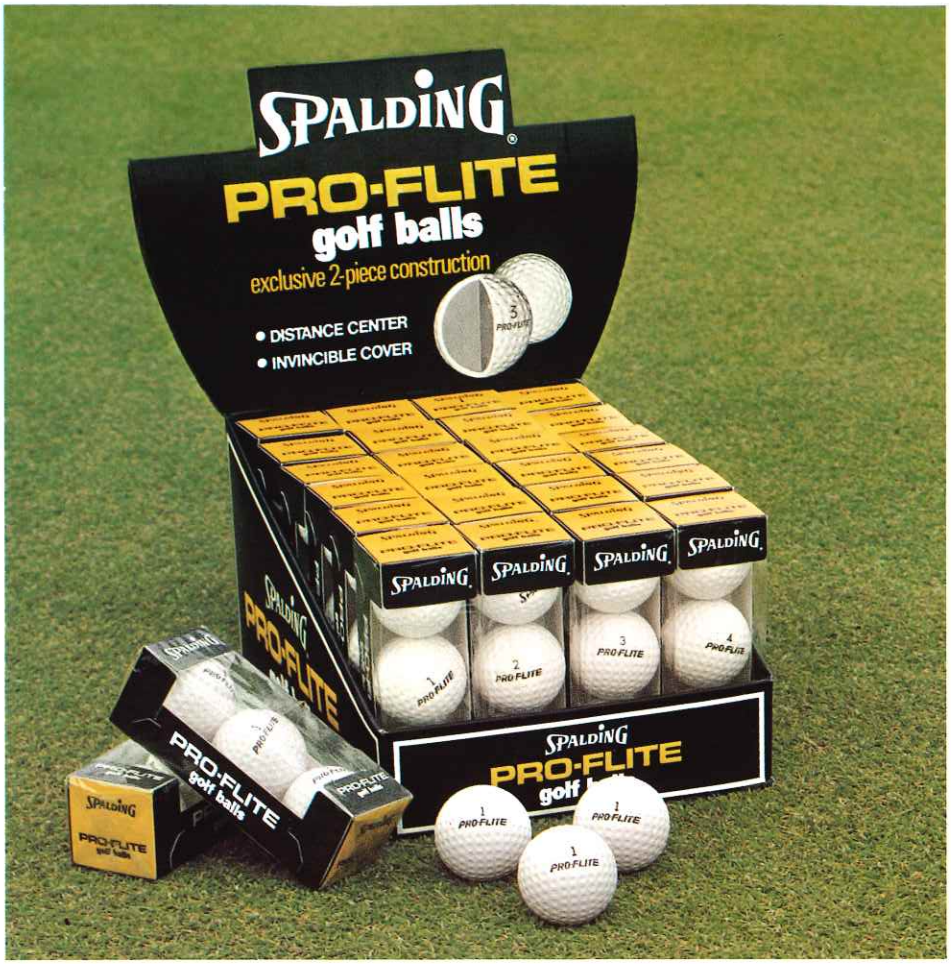
Here's a touch of class that's certain to make the right impression on your club members, their guests and business associates. Use your own club logo to make your course or tournament unforgettable. Or introduce the idea to members who want to spread their own word.

Choose Spalding Top-Flite, America's number one selling pro shop ball, Dot Diamond, Molitor or Flying Lady for women.

Here are the three standard imprinting options:

1. A course, tournament or company name in block or script letters.
2. A course, tournament or corporate logo in up to four colors.
3. Combination of name and logo. (Logo on one equator, name on the opposite.)

For complete custom imprinting information, refer to the Spalding Professional Golf Price List, or contact your Spalding Representative.



Pro-Flite®

By far the best value in a total-performance, pro shop ball. Spalding's exclusive blend of Surlyn® makes Pro-Flite's cover virtually cut-proof. An energy-storing, solid center gives any golfer the most distance for his swing. And for his money.

11-175 Pro-Flite
Sugg. Retail **$10.00/dz.**

U.S. PATENT NOS. 3,640,028; 3,819,768

Range Balls

These high performance range balls reward every improvement a golfer makes in his swing. Tough cover for long range life. Spalding's proven two-piece construction for extra distance off all clubs. Plus that same satisfying click and feel bucket after bucket.

11-181 Super Range (double red stripe). Premium quality "Super Range" range balls are guaranteed not to crack for one full year. Your Spalding Representative has the details.
11-1831 Spalding Range (single red stripe). Value priced.

Special Order Range Balls

Personalize your range balls with your course name or a message, up to 12 letters on each pole. Printing is $3/16$" high. Striping colors: red, green, blue, black.

11-182 Special Order Super Range (dual stripe)
11-1837 Special Order Spalding Range (single stripe)

Executive®

More club where you need it most.

Executive's extreme toe-sole weighting, radical Sweep Sole™ design and light total weight can help any golfer hit shots cleaner, higher, straighter. Executives represent the most radical advance in golf clubs in years. They are without question the easiest to hit clubs ever made.

Irons

- ☐ Wide, expanded sweet spot for more help on off-center hits
- ☐ Extreme sole-toe weighting helps correct common mis-hits
- ☐ Low center of gravity produces consistently higher trajectories
- ☐ Incredibly wide Sweep-Sole gets through even slightly fat hits
- ☐ Investment cast stainless steel for precision and durability

Woods

- ☐ Unique toe weight expands sweet spot
- ☐ Full sole plate for durability and low center of gravity
- ☐ Narrow sole and Slant-Back trailing edge clear turf faster
- ☐ Unusually high toe and flat crown provide more contact area but seem to sit lower behind ball
- ☐ Extra degree of loft helps get the ball up better

Grips

- ☐ Custom Golf Pride Crown grips

Shafts

- ☐ Lightweight True Temper® "Jet Step" shafts are tip flexible for easier control, maximum "kick" and higher trajectory

Weights

- ☐ Light total weights in both woods and irons for better control and added distance.
- ☐ Precision swing weighted and total weighted

New Executive 5+7 set.

A new set composition for the high handicap, senior or better player who would rather hit a wood than a long iron. This special Executive set not only replaces the more difficult to hit #2 and #3 irons with #6 and #7 woods, but offers Executive's 12° driver plus a new playability proven #3½ and #5 wood. Set comes with fashionable knitted head covers at no additional cost.

The new Top-Flite®

First clubs with Lite-Dynamic shafts – the missing link between lightweight feel and heavyweight force.

The Lite-Dynamic shaft. It's light weight for faster, easier swings. But unlike other lightweights, it also has the strength of a Dynamic shaft — strength that allows us to put more weight in the clubhead without any loss of control. The results: The feel of a lightweight club in your hands, and the controlled force of a heavyweight head in your hits. The new Top-Flite. Victory grips, forged heads, contoured soles, custom woods.

Top-Flite®
Pro-Forged

Irons

- ☐ Carbon steel pro forging for that "soft" feel of control
- ☐ Short hosel and heavy flange for low center of gravity
- ☐ Clean, uncluttered face and back
- ☐ Slight offset encourages proper hands ahead position

Woods

- ☐ Spalding's popular Custom Model #28 Driver, all new fairway woods
- ☐ Rugged, responsive woodheads with dark cherry stain, maroon Cycolac® insert
- ☐ Four conventional face screws enhance traditional player appeal
- ☐ Tour proven "9 x 9" roll and bulge

Shafts

- ☐ New "Lite Dynamic" by Spalding and True Temper
- ☐ Offers traditional control of Dynamic shaft, but permits lighter total weight

Grips

- ☐ Soft-feel, pro-preferred Victory grip by Golf Pride

Weights

- ☐ Precision swing weighted and total weighted

Elite Centurion™

The game's most beautiful clubs.

Pride in appearance, precision in play—Centurions are made for the golfer who refuses to own less than the best. They are an unparalleled combination of classic playability and modern design from the game's most experienced clubmaker—Spalding. Ask a golfer who owns a set.

Elite Centurion (MRH)

	Code No.	Set of	Composition	Shaft Material	Flexes and Swing Weights	Sugg. Retail
Irons	3701-18	8	3-9, P.W.	Lt. Wt. Steel	M(D1,D2)	$300.00

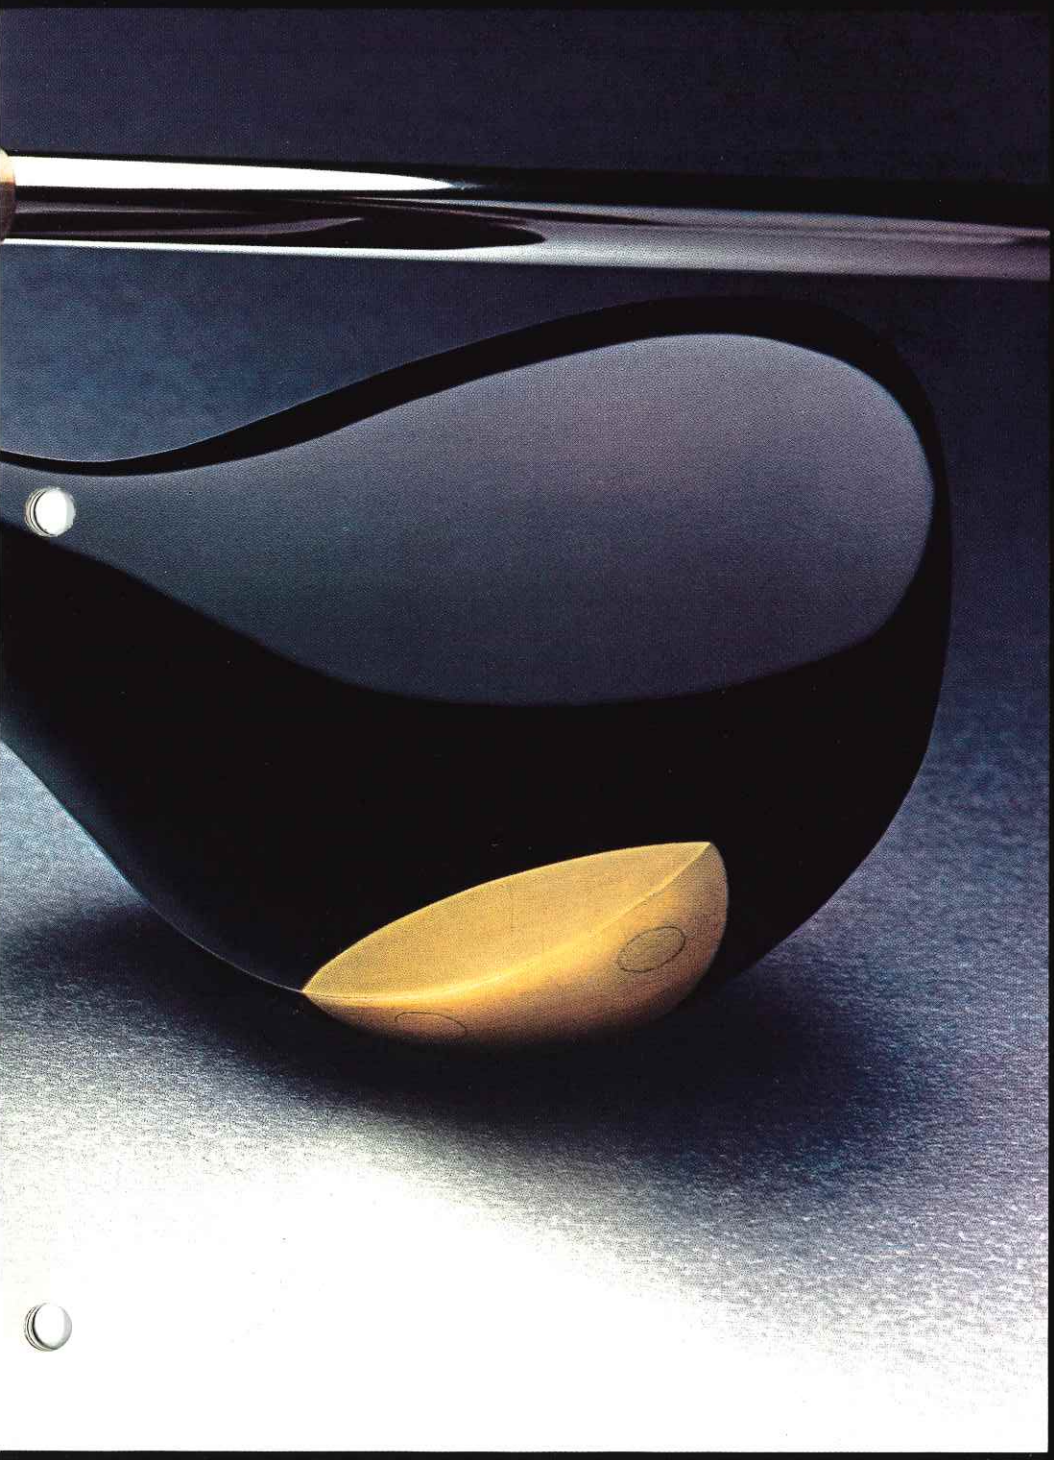
Woods	2701-13	3	1,3,5	Lt. Wt. Steel	MD2	$135.00
	2701-14	4	1,3,4,5	Lt. Wt. Steel	M(D1,D2)	$180.00
	2703-13	3	1,3,4	Dynamic Steel	S(D2,D3)	$135.00
Auxiliaries	3701-02	1	#2 Iron	Lt. Wt. Steel	MD2	$ 37.50
	3701-49	1	Sand Club	Lt. Wt. Steel		$ 37.50
	3703-49	1	Sand Club	Dynamic Steel		$ 37.50



Irons

- ☐ Precision investment cast #431 stainless steel-chromed for luster and added durability
- ☐ Radiused and cambered sole greatly reduces turf drag
- ☐ Shorter hosel creates lower center of gravity in blade and moves sweet spot farther out on the face
- ☐ Slightly offset blade encourages hands-ahead position at impact
- ☐ High toe and thin top line instill confidence at address

Woods

- ☐ Wood heads designed for and proven in play by Spalding's Touring Pro Advisory Staff
- ☐ Medium deep faced driver with precise bulge ratio promotes accuracy off the tee
- ☐ Shallow faced fairway woods play better even from difficult lies
- ☐ Unique brass back-weighting system

Shafts

- ☐ Available in lightweight medium flex for lower weight, maximum "kick" and higher trajectories–for the handicap player
- ☐ Available in stiff Dynamic–the shaft preferred by stronger players

Grips

- ☐ Distinctive Custom Centurion grips

Weights

- ☐ Precision swing weighted and total weighted

Spalding Custom Made Golf Clubs

Totally customized clubs for the individual player's special needs.

Recognizing that many golfers need individualized clubs to reach their full potential, Spalding operates one of the world's largest and most experienced custom departments. With an average of 17 years of custom club making experience each, Spalding craftsmen have fashioned literally thousands of sets of specialized clubs. Some have been simple modifications from stock clubs. But many have been truly one-of-a-kind designs built to the precise specifications of the exacting individuals who play them.

Here are just some of the features Spalding craftsmen can adjust to meet individual needs:

Stock clubs (Executive, Top-Flite, Elite Centurion)

- ☐ Wood and iron head shapes and stains
- ☐ Lie, loft, face angle and bulge
- ☐ Swing weight and total weight
- ☐ Shaft type, material, length and flex
- ☐ Grip material, style and size

Non-Stock models and options

- ☐ Ladies' and Juniors' Centurion and Top-Flite clubs
- ☐ Spalding's forged Custom
- ☐ Graphite drivers and fairway woods in any Spalding model
- ☐ A variety of non-stock wood head models in Persimmon or Laminated
- ☐ #1 iron; #2 and #6-10 woods

Spalding has two levels of custom made pricing. For the following custom options there is no extra charge above the standard cost of the clubs. For specifics on all other options, see your Spalding Representative.

No extra charge for:

- ☐ Swing weight change ±2
- ☐ Grip size ± 1/32″
- ☐ Most shaft flexes
- ☐ Dynamic or lightweight steel shafts
- ☐ Different composition grip models (leather or cord is extra)
- ☐ Most set configuration changes
- ☐ Shaft length ± up to 1″
- ☐ Other minor changes versus standard

Executive Wood Model 130

Model Persimmon 200C

Executive Iron

Custom logo and personalized clubs.

This year, as in the past, Spalding will stamp a logo plus the name of your club at no charge when ten or more sets are purchased. There is no charge for a different shaft, grip, swing weight, loft or lie change; and only a minimal charge for custom shaping when custom logo is included.

For an extra personalized touch, you may order Spalding clubs with the golfer's initials included. For complete information on Spalding's Custom Club service, contact your Spalding Representative.

Epic 5000

Top-grade features at a popular price.

Irons

- ☐ Cavity backed irons for heel and toe weighting
- ☐ Lightweight steel shafts
- ☐ Computerized matching throughout the set

Woods

- ☐ Recessed face insert
- ☐ Hand sculptured, laminated heads
- ☐ Lightweight steel shafts

Also available in a left-handed model.

Epic 2000

The best value in golf today.

Irons

- ☐ Cavity backed irons for heel and toe weighting
- ☐ Lightweight steel shafts
- ☐ Computerized matching throughout the set

Woods

- ☐ Titanite face inserts for durability
- ☐ Top-grade, non-slip all-weather composition grips
- ☐ Polyurethane coated wood heads

Tee-Flite™

Quality clubs for the serious beginner.

Irons

- ☐ Pro-style, sandblasted iron heads
- ☐ Tempered steel shafts
- ☐ Balanced, weighted and matched throughout the set

Woods

- ☐ Durable Persimmonite resists chipping and denting
- ☐ All-weather, slip-resistant composition grips
- ☐ Professional quality and playability

Also available: Jr. Tee-Flite for younger, smaller beginners. Same quality and looks as Men's Tee-Flite.

Ladies' Golf

Ladies' Executive

The easiest to hit women's clubs ever made!

The game improvement features found in the new Executive are even more important for women. They'll hit cleaner, higher and straighter–even with the long irons!

Ladies' Executives come with shorter, more flexible shafts, smaller grips and lighter weights. But they're not overly decorated. They look like serious golfing instruments–elegant and yet absolutely functional. Because that's the way serious women golfers want them. And leaving the flowers off means that they can be used by smaller men and junior players, too.

Irons

- ☐ Precision investment cast
- ☐ Extreme sole-toe weighting corrects more mis-hits
- ☐ Low center of gravity produces higher trajectories
- ☐ Incredibly wide "Sweep Sole™" fights turf drag
- ☐ "More club" appearance instills confidence

Woods

- ☐ Extreme sole-toe weighting
- ☐ Slant-Back trailing edge helps clear turf faster
- ☐ High toe and flat crown increase confidence with fairway woods

Spalding Grip Sizes

Golf Club grips taper gradually from cap to bottom trim. Grip diameter of Spalding Clubs is measured at a point 2 inches down from the base of the cap. (This diameter does not include the finger ridge on Form Grips.)

Standard Grip Sizes

Men .90 inch diameter
Women .85 inch diameter

(Special Grip Sizes–Special Order Only)

When you need us, we're there.

At Spalding we know we make the finest golf equipment in the world. We also know you need service to back it up. That's why you get Spalding Customer Service that lives up to the quality of Spalding golf products.

Take a look at the back cover of the catalog. As you can see, no matter where you're located, there's a Spalding Distribution Center strategically positioned in your region. That's how we put less time between you and the delivery of your order.

When it comes to placing an order, we've got that one solved too. Your phone call to one of our Distribution Centers is instantly processed through Spalding's new computer system and communicated to the Distribution Center nearest you. The results? The fastest, most accurate, most dependable deliveries in the business.

But what happens when a problem comes up? It's bound to happen once in a while. When it does, we want to hear about it fast. That's why we've installed 18 full time service representatives in six new Customer Service Centers across the country.

If you have a question on delivery or anything else about Spalding, call one of these reps at the Customer Service Centers listed. You'll get a fast, straight answer. Because we know that making your business as successful as possible is the best way to make ours that way, too.
